

# CL 1200 MULTI PURPOSE HD GREASE

## PRODUCT DESCRIPTION

CL 1200 Multi Purpose HD Grease is a premium lithium grease commonly used in automotive and industrial applications for use in wheel bearings, chassis points, bearing, and other various applications. CL 1200 Multi Purpose HD Grease meets NLGI GC-LB requirements.

CL 1200 Multi Purpose HD Grease is an extreme pressure grease that provides superior protection and excellent water resistant protection.

CL 1200 Multi Purpose HD Grease can also be used in a variety of industrial applications and is a great choice when reducing the amount of greases used in manufacturing facilities.

## PRODUCT FEATURES

- Extreme Pressure Additive to prevent shock load
- Rust & Corrosion Protection
- Excellent water resistant to prevent water “Wash Out” condition
- Superior tackiness provide complete surface protection
- Applicable to the most bearing type

## TYPICAL SPECIFICATION

NLGI Grade .....	2
Penetration, Wkd 60 Strokes, ASTM D 217 .....	265 – 295
Texture.....	Smooth Tacky
Dropping Point, °F, ASTM D 2265 .....	500- 600° F
Rust Test, Bearing Corrosion, ASTM D 1743.....	Pass
Water Wash-Out Test, % Loss @ 175 °F .....	<5.0 Typ.
Timken, OK Load, Lbs, ASTM D 2509. ....	60- 70 lbs
Four Ball E.P. Test	
Base Oil Characteristics	
*Viscosity @ 40 °C, cSt .....	200 – 260

\*Viscosity @ 100 °C, cSt ..... 16.5 - 19.5
