

CL 450 ENGINE OIL TREATMENT

PRODUCT DESCRIPTION

CL 450 ENGINE OIL TREATMENT is a special designed engine oil additive for most European and Japanese vehicles which helps to against metal to metal friction for all engine's inner moving parts.

Its molecules interact with metal surfaces, chemically bonding to create a protective layer that reduces damaging friction and heat.

Injecting with 500ml passenger additive into a 3.5 liter to 4 liters engine oil will help to enhance engine oil performance and able to smoother up your engine running condition.

1 L : 8 L

FEATURES & BENEFITS

- ❖ Help to protect against engine wear
- ❖ Smoother engine performance
- ❖ Enhance engine efficiency
- ❖ Protect engine inner parts
- ❖ Reduce oil consumption
- ❖ Soften engine noise

APPLICATION

CL 450 Engine oil treatment is specially developed for both GASOLINE & DIESEL engines.

It is recommended as an effective treatment for topping into your engine.

DIRECTION FOR USE

CL 450 Engine oil treatment encourage to use every oil change.
