

CL 6200 COIL CLEANER (NON ACID)

PRODUCT DESCRIPTION

CL 6200 Coil Cleaner is a blend of high performance alkaline detergents and penetrants designed for heavy duty degreasing, cleaning and brightening of condenser and evaporator coils, fins and other equipment surfaces. For good maintenance and equipment efficiency, use monthly or as required to keep grease, oil, dust, lint, etc. off the unit.

ADVANTAGES

CL 6200 Coil Cleaner is nonflammable, non-oily and effective in water with up to 500 ppm hardness. It is very effective on heavy grease and oily dirt, yet maintains its free rinsing qualities. Surfactants in this product are biodegradable.

APPLICATION

- Expanding foam action
- Alkaline formulation is excellent on greasy coils
- Dilution rates from 1 to 20 parts water
- U.S.D.A. accepted
- Must be thoroughly rinsed with water
- Contains hazardous component potassium hydroxide
- Good ventilation, protective gloves, and eye protection required

TYPICAL PROPERTIES

Appearance & Odor	Clear Red Liquid, Slightly Sweet Odor
Boiling Point	> 100°C
Specific Gravity (H₂O=1)	1.07- 1.08
Evaporation Rate (Water=1)	> 1 < 2
Vapor Density (Air=1)	> 1
Water Reactive	NO
Solubility in Water	Miscible
