

CL 6400 SAFETY SOLVENT DEGREASER

PRODUCT DESCRIPTION

CL 6400 Safety Solvent Degreaser is a non-flammable, non-conductive, safety solvent cleaner and degreaser was designed specifically for the rigors of **Industrial Cleaning**. **CL 6400 Safety Solvent Degreaser** has high power flushing action penetrates and removes grease, grime, dirt, tar, wax, and other contaminants.

CL 6400 Safety Solvent Degreaser has high dielectric strength and non-flammability allow for these safety solvents to be used on energized electrical equipment and machinery. Dries fast and completely residue free. **CL 6400 Safety Solvent Degreaser** is a low-odor degreaser, contains NO-CFCs, no petroleum distillates or Chlorinated solvents.

CL 6400 Safety Solvent Degreasers are a fast acting combination of solvents in a water based solution. Dries virtually residue free leaving only a thin invisible film which protects the newly cleaned metal from surface oxidation.

FEATURES

- **Dries Quickly**
- **Residue Free**
- **Inhibits Rust**
- **Ozone Safe**
- **Non Flammable**

APPLICATION

Truck and Auto Engines, Machinery and Tools, Pumps and Compressors, Metal, Rubber, Glass, and Painted Surfaces.

DIRECTION TO USE

- Wipe until surface is saturated.
- Wait 2 to 5 minutes for penetration.
- Wipe Clean or let air dry.
- Make sure surface is completely dry of solvent degreasers before reconnecting to avoid electric shock.
