

CL 7280 FG SILICONE DRY LUBE

PRODUCT DESCRIPTION

CL 7280 FG Silicone Dry Lube permits the application of very thin layer of silicone film to metal and glass surfaces to prevent foodstuffs from sticking while aiding in easier clean up.

CL 7280 Complies fully with 21 CFR 178.3570 and 178.3620 which limits incidental contact with food to no more than 1 ppm. Heat stable and inert effective from -40°F to 400°F. (USDA H1) approved.

CL 7280 FG Silicone Dry Lube is a transparent, odorless, quick-drying coating.

CL 7280 FG Silicone Dry Lube is non-staining, oil free and waterproof preserves most rubber, plastics, leather, wood and metal surfaces.

CL 7280 FG Silicone Dry Lube eliminates squeaking, sticking and binding while also reducing friction. It also formulated with an ultra high viscosity silicone.

APPLICATION

- Food Processing Machine
- Conveyors chains
- Slides & Chutes
- Packing Equipment
- Heat Sealing Machine
- Rubber Components
- Knife blades
- Cutting table
