

# CL 7400 WHITE LITHIUM GREASE

---

## PRODUCT DESCRIPTION

**CL 7400 White Lithium Grease** is an excellent all-purpose white grease. When sprayed, it produces a thin grease that penetrates into confined areas to fully lubricate your parts. Once in place, it produces a full-bodied, high quality grease. Contains corrosion inhibitors and good shear stability up to 350°F. Use on locks, latches, hinges, sleeves, pins, springs, chains, cams, roller, slides, and on many other parts.

**CL 7400** can be used for the lubricating of all types of grease lubricated bearings commonly found in canneries, beverage bottling plants, potato chip plants, poultry processing plants, meat processing plants and other food processing plants. **CL 7400** Complies under USDA H2 classified.

## APPLICATION

**CL 7400** is composed of Lithium Complex soap carrier. Typical applications are

- Automotive
- Conveyor Chain
- Piston, Valve
- Slides, Hinges, Pulleys, Wheels.

## TYPICAL PROPERTIES

<b>FORM</b>	Solvent Base Aerosol
<b>Lubricating Solid</b>	Lithium Complex
<b>Temperature Range</b>	-80°F to 350°F
<b>Flash Point</b>	None
<b>Odor</b>	Solvent Light Odor
<b>Color</b>	White Liquid
