

# CL 7480 FG WHITE GREASE

---

## PRODUCT DESCRIPTION

**CL 7480 FG White Grease** is your first choice for use on food processing equipment. Complies with 21 CFR 178.3570. Specially formulated with a Calcium NLGI #2 food machinery grease. Provides excellent lubrication, long life and reduced part wear. May be used on equipment where incidental food contact may occur. When sprayed, it produces a thin grease that penetrates into confined areas to fully lubricate machinery parts. Contains corrosion inhibitors and good shear stability up to 350°F.

**CL 7480 FG White Grease** is classified under USDA as a H-1 lubricant.

## APPLICATION

**CL 7480** is composed of Calcium soap carrier. Typical applications are

- Hospitals Equipment
- Conveyor Chain
- Piston, Valve
- Slides, Hinges, Pulleys, Wheels.
- Foods processing Equipment

## TYPICAL PROPERTIES

<b>FORM</b>	Solvent Base Aerosol
<b>Lubricating Solid</b>	Calcium
<b>Temperature Range</b>	-80°F to 350°F
<b>Flash Point</b>	None
<b>Odor</b>	Odorless
<b>Color</b>	White Liquid
